

Having a test

- My school wants everyone to be safe
- I will get a test for coronavirus
- I was tested at school, but now I will be tested at home
- Tests help everyone to be safe

Preparing for the test

- A member of my family may help me prepare for the test
- I will follow the instructions given by the NHS
- I can ask questions and say if I feel worried

My mouth swab

- I will open my mouth wide
- I will swab inside my mouth
- It is very quick and might tickle

Nose swab

- I will swab inside my nose
- It is very quick and might tickle
- My test is finished

My test is finished

- An adult will say if I need another test
- I have helped everyone to be safe
