QUAD Exhibition

A Season to Explore

QUAD presents an Autumn/Winter season of exhibitions, workshops, talks and events that invites our audiences to explore reimagined worlds, share memories and experience new horizons.

QUAD is delighted that we will be bringing the work of Lawrence Lek to QUAD Gallery this autumn. Lawrence is one of the most lauded artists working in the UK today. Working across the fields of film, music, and video games, he explores worldbuilding as a form of collage, incorporating elements from the material, sonic and virtual worlds to develop narratives of alternate histories and speculative futures.

[Click here to visit Lawrence's website.](#)

Lawrence Lek presents '*Nepenthe (Summer Palace Ruins Edition)*', an architectural installation and video game revolving around the ruins of Beijing's Old Summer Palace. This installation is part of his ongoing open-world game '*Nepenthe*', which is set on a mysterious island named after the fictional medicine for sorrow from Greek mythology.
