Dear Colleague

As you are aware as a collection of schools we have been working hard with colleagues in the local authority to develop a connected set of provisions to provide for children with SEMH needs across Derby City. Part of this work has been to create an individual identity for each of our schools.

Hopefully you will already be aware that the schools known as Kingsmead and Newton's Walk will be changing their names.

Kingsmead PRU and Newton's Walk PRU will become a through school known as **Bridge Street School**, our Hospital Medical provision, which historically was part of the Kingsmead PRU will become the **Castle School** and Kingsmead School, our special school, will remain as **Kingsmead School**.

Through pupil and staff voice we have created the following logos for each of our provisions.

**Bridge Street
School**

**Castle
School**

**Kingsmead
School**

As schools we operate under a collective structure for governance and leadership, therefore we have named the collection '**Respect Collaboration of Schools**'.

**Respect
Collaboration
of Schools**

These names will be in effect from the 1st September 2023.

We know there is more to school than logos and names, however these are owned by the pupils who attend our provisions and are important to them as young people. Additionally we hope that this will be helpful for system leaders when discussing our provisions and potential opportunities for young people in your schools and across the city.

Please share this information with colleagues in your schools and trusts.

Thank you for your continued support as we go on our journey.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Mike Pride', with a stylized flourish at the end.
